VALUE PROPOSITION

Our value proposition is centred on practical and innovative use of your SharePoint investment adhering to best practice methodologies. By following our approach, customers will ensure SharePoint success.

SharePointKonsult offers among others the following services:

■ ECM (Enterprise Content Management)

SharePointKonsult has the skills to plan, deploy and roll-out the full ECM offering of SharePoint. From document management, records management, social networking, web content management; we provide a turnkey service in the Enterprise Content Management (ECM) SharePoint ECM arena.

■ Enterprise SharePoint Deployments

The SharePointKonsult team has deployed the technology to a number of large organisations of greater than 5000 users. Let them assist to plan your enterprise SharePoint deployment and take advantage of their superior skills.

■ Internet, Intranet and Extranet implementation of SharePoint

Standardise your web assets on SharePoint; and let our team harness the platform to integrate your website, intranet and extranet seamlessly. SharePointKonsult will show you the way in consolidating your web platforms and content management processes. Eliminate complex content management processes by simply authoring from the Intranet, and with workflow approve content that is then published on the Internet, Intranet and Extranet implementation of SharePoint Internet website.

■ SharePoint UI/UX Services

SharePointKonsult offers services to address User Interface (UI) and User Experience (UX) requirements on the SharePoint platform. Employing world class design principles we create SharePoint portals with an appealing interface, exceptional usability and high user adoption.

■ SharePoint-SAP Integration

SAP handles structured (transactional) data, superbly; while SharePoint is in a class of its own when dealing with Enterprise content (unstructured data). Using SharePoint we can combine these two structured and unstructured data environments to produce a single view. The possibilities are endless for the information worker to see the bigger picture, using a single entry point.

Contact our team today to demonstrate the value of SharePoint 2010.
